OPTIMIZED CERTIFICATION & MARKET ACCESS AND UNIQUE TEST SERVICES

TESTiLABS' services are developed based on our two core customer promises:

Optimized Certification & Market Access Services

Customer focused certification & market access ensures you get your product into the market with minimized cost and optimized Product Development time.

TESTiLABS' certification and country approval experts will always optimize your products path to the global marketplace.

Unique Custom-built Services

TESTiLABS has unique test methods and custom-built services that you will not find anywhere else. In addition, we have a global network of test service professionals. Together with our pre-selected partners TESTiLABS is able to provide you world leading test services portfolio.

Together we can make your product exceed your customers' expectations.

If your requirements are not covered by TESTiLABS' services portfolio, we will find a partner having this expertise. You can truly call us a

"One stop test and certification shop".

ONE STOP TESTING AND CERTIFICATION SHOP FOR A WIRELESS WORLD

Product Development and Pre-Compliance Testing

TESTiLABS Testing Services, Maturity Statements, and Improvement Proposals, gives you full confidence about product maturity during the development phase.
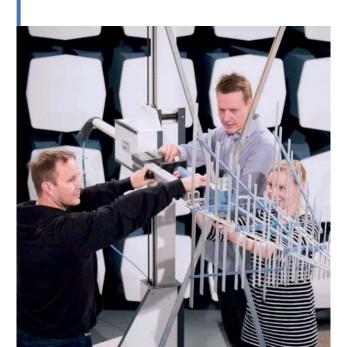

Our customers have utilized our unique Test Services in Positioning, Camera, Radio Performance, Audio, and in many more areas to improve their products reliability and performance. By using our experience, we will help you to define the critical areas to test at each phase of Product Development.

Certification Testing and Market Access Services

TESTiLABS is a one stop test and certification shop. Our certification services range from typical regulatory (CE, FCC, ISED) certifications to country specific approvals and even to network operator approvals (GCF, PTCRB).

TESTiLABS' certification portfolio added with our partners' services ensure you have access to the most complete certification and testing laboratory services in the world.

Test & Certification Project Management

Are you confused which requirements your product needs to comply with? EU Directives, FCC Requirements, GCF Certification, and Country Specific Approvals and various other requirements? Professionally planned testing and certification activities can save you a lot of time and money.

TESTiLABS test and certification project managers will define certification requirements, needed testing and documentation, based upon your device specifications and target markets.
